

More Than 65 Years Developing The Pumping Technology That Drives Progress

Ruhrpumpen is an innovative and efficient pump technology company that offers highly engineered, custom made solutions for oil & gas, chemical processing, power generation, industrial applications and water.

Implementation of cutting-edge technology and world-class engineering, combined with our unique vertically integrated structure, allows Ruhrpumpen to design complex technical solutions, creating the most robust and powerful pump systems in the marketplace.

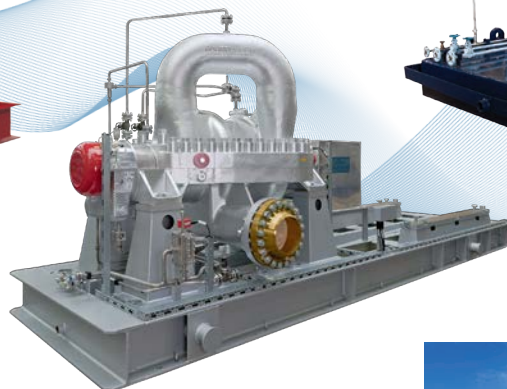

Our broad product line complies with the most demanding quality standards and industry specifications such as American Petroleum Institute (API), American National Standards Institute (ANSI), Underwriter's Laboratories (UL), Factory Mutual (FM), National Fire Protection Association (NFPA), ISO and Hydraulic Institute.

Ruhrpumpen at a Glance

- Vertical integration
- More than 65 years of experience
- Operations in more than 35 countries
- + 2,000 employees
- Manufacturing facilities in 10 countries
- +15 service centers
- +70,000 pumping solutions installed worldwide

Products

- Sealless magnetic drive pumps
- General end suction process pumps
- Single stage overhung pumps
- Single and multi-stage between bearings pumps
- Vertical multi-stage pumps
- Submersible pumps
- Pitot tube pumps
- Reciprocating pumps
- Cryogenic pumps
- Packaged systems
- Fire protection pump systems
- Hydraulic decoking systems

Markets We Serve

Our commitment to create innovations that offers reliable solutions to our customers allow us to provide a complete range of pump systems to support core markets as:

- Oil and Gas
- Power Generation
- Chemical Processing
- Water and Wastewater
- General Industry
- Mining

What Sets Us Apart

Intelligent Pumping Systems

Ruhrpumpen develops complete systems and units for your specific applications. Even if you face a complex challenge, we provide you with a complete pumping solution.

Cost-Effective Solutions

We develop systems and units with minimized energy consumption, high efficiency, low maintenance and a long lifetime.

Total Manufacturing Control

Our modern foundry guarantees the exceptional quality of our products and offers complete self-reliance for the production of new pumps and fast delivery of spare parts.

The Most Flexible Business Structure

Our organizational structure provides the framework that allows customers to capitalize on the benefits of dealing with a global organization while maintaining speed and efficiency in its decision-making process.

Complete Pump System Management

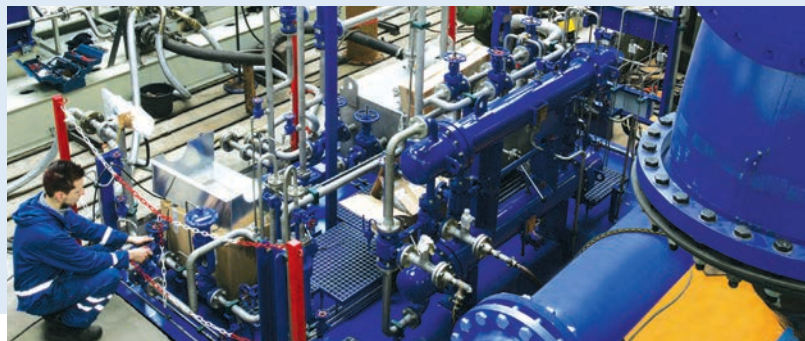

The modular nature of our pumping systems provides maximum interchangeability of components to meet your fluid handling requirements.

Global Reach, Local Presence

With our global service network we provide our best in class services around the world and answer local needs more quickly and precisely.

Ruhrpumpen is your Single Source Supplier

- Original equipment
- OEM spare parts
- Installation and startup support
- Repair and maintenance
- Engineering, training and consulting
- Reverse engineering

Manufacturing Plants and Service Centers

Plants & Service Centers

- USA, Tulsa
- Mexico, Monterrey
- Brazil, Rio De Janeiro
- Argentina, Buenos Aires
- Germany, Witten
- Egypt, Suez
- India, Chennai
- China, Changzhou
- UK, Lancing
- Russia, Moscow

Service Centers Only

- USA, Virginia
- USA, Baton Rouge
- USA, Houston
- Mexico, San Luis Potosi
- Mexico, Coatzacoalcos
- Colombia, Bogota
- Chile, Antofagasta
